# Wellness at Amanyangyun

Wellness is more than being free from illness, it is a dynamic process of change and growth, a state of complete physical, mental and social wellbeing. Aman's spa concept has been carefully curated with four pillars of wellness in mind – nutrition, movement, psychological health and bodywork – with the singular goal of achieving this ideal balance of Integrated Holistic Wellness for every guest.

Treating the whole – mind, body and spirit – by integrating ancient healing modalities with the best of modern science, Aman strives to provide guidance, support and knowledge in a journey that extends beyond the physical boundaries of the globe's Aman Spas. Our aim is for guests to leave empowered and renewed, with the tools to continue their wellness journey, and the resilience and focus to put them into action.

## A New Spa Language

Ancient healing arts such as Traditional Chinese Medicine (TCM) are based on complex theories of the workings of the human body and mind. They incorporate aspects of health unexplored in allopathic medicine, so certain concepts can sound strange to the uninitiated. Talk of chakras and energy can be off-putting when taken out of context. Yet when understood as part of the philosophy behind a traditional healing system, they reveal an intriguing new language for explaining how our bodies work. While understanding these theories is not a prerequisite to enjoying their benefits, Aman Spa aims to demystify this language. Please ask us if you wish to know more about the ingredients or modalities used in any of our treatments.

## Understanding Energy

The idea of life force or life energy is very common in traditional healing systems. In TCM this is known as “qi” (chi), while in Hindu philosophy including yoga, Ayurveda and martial arts, “prana” is the Sanskrit word used to describe this potent vital energy. A shared principle in many healing modalities is that any blockage to the flow of life force in a body can cause imbalance and therefore ill health in some respect. Blockages can be physical, mental or emotional, and their removal to restore balance and energy flow is the main goal of many traditional healing practices.

# Amanyangyun Spa & Wellness Centre

## A glimpse of the future, entwined with the past

A living reminder of the past, Amanyangyun embodies how every moment is a product of the moments before, holding anticipation for those to come. The past, present and future are inextricably intertwined, yet it is in the present moment alone that we exist. It is this moment – the “now” – that Amanyangyun’s 2,840-square-metre Aman Spa celebrates, all the while appreciating the personal legacy that has brought its guests to this place and preparing them for their journey going forward.

Inspired by the historic architecture of the property’s Antique Villas, the Aman Spa is nonetheless an ultra-modern wellness destination with unrivalled facilities. Designed around a tranquil 640-square-metre courtyard, it offers 10 spa treatment rooms (two double and eight single); four relaxation lounges with reclining massage chairs; and extensive thermal facilities including two private Bathing Suites, a sauna, cold plunge pool and Jacuzzi. A 20-metre heated indoor swimming pool is complemented by a 57-metre outdoor swimming pool with a relaxation terrace and forest views. A hair & beauty salon offers finishing touches, while a vast movement facility incorporates a light-filled Fitness Centre, Pilates Studio and Yoga Studio.

Open to resort guests and private members, Amanyangyun’s Aman Spa was the first to launch after the brand’s global introduction of Aman Wellness in 2016. As a result, it offered the first full expression of this initiative, incorporating every aspect of wellness from nutrition, movement and beauty, to emotional and spiritual wellbeing through the carefully curated Aman lens.

The treatments, experiences, journeys and rituals on offer reflect the link between the past and the present, drawing inspiration from the origins of the resort, its proximity to Shanghai and the traditional healing practices of China. Whether you seek a shift in wellbeing related to stress, weight or energy, or just desire some indulgent time out, Amanyangyun’s expert therapists will respond to individual needs with personalised treatment programmes and expert nutrition and fitness advice.

## Tea Mixology

Tea culture in China is layered in ritual and meaning. Considered one of the seven 'daily necessities' along with firewood, rice and salt in ancient times, tea was also associated with self-cultivation, philosophy and education. Today offering tea is still viewed as a symbol of welcome, and guests can choose from a select menu of teas on their arrival at Amanyangyun's Aman Spa. This welcoming range includes classic teas such as Oolong, Dragon Well and Green tea, as well as herbal teas showcasing some of China's most important medicinal plants.

A concept inspired by the principles of oriental herbal medicine, tea mixology is the mixing together of traditional herbs and fruits to make teas suited to individual needs and situations. Complementing spa treatments and Immersion experiences alike, Amanyangyun's herbal teas are brewed from natural ingredients used in China for centuries to address a myriad of wellness goals, from lowering stress and reducing tension, to managing pain and improving overall wellbeing. Ingredients are chosen not only for their therapeutic benefits, but also to reflect the seasons and the current state of the natural environment.

## Foot Ritual & Smoking Ceremony

A deeply relaxing, mineral-rich Foot Ritual is a prelude to each treatment. This is also symbolic - an act of humble service that fosters trust, helping guests to fully benefit from the treatments that follow.

The Foot Ritual is followed by a traditional Smoking Ceremony, a gentle rite of spiritual purification. The smoke of Black Amber - a derivative of the life-preserving resin - is used for all Grounding treatments to restore energy and shield against infection. Purifying treatments begin with the burning of Palo Santo, often called 'holy wood' for its ability to reduce inflammation, ease stress and boost moods. Frankincense smoke is used for all Nourishing treatments, said to offer protection, enhance spiritual awareness and lift one's emotions.

# Aman Signature Treatments

Aman's signature treatments worldwide are based on Aman's line of all-natural skincare products. These draw on the knowledge and wisdom of ancient wellness traditions while harnessing the power of nature. Rare and precious ingredients used include pearls, homeopathic metals, healing tree oils, amethyst, jade, frankincense and palo santo, as well as alkalising, oxygen-rich spring water, wild-harvested Amazon butters and rainforest muds. Consisting of smoked body balms, fragrant dew mists, liquid body oils, invigorating body polishes, anti-ageing serums and more, the range is made from organic ingredients sourced from around the world for their purity and potency, and their link to Aman destinations.

Grouped into three unique formations that reflect three healing pathways back to wellness - Grounding, Purifying and Nourishing - the products contain ingredients with a molecular vibrational energy that work in sequence with the human body to promote change and return equilibrium. The physical benefits of each product are completely aligned with its ability to address emotional imbalance, together offering a holistic fine-tuning with tangible, long-lasting results.

There are four signature treatments available within each formation: Massage, Body Polish & Wrap, Face Ritual and the Journey, which encompasses all three treatments to greatly amplify their effects. Each treatment is tailored to the individual to target specific concerns and help attain personal wellness goals.

# Grounding Pathway

For those seeking reconnection, stillness and perspective.

Developed to promote inner peace and return body and mind to a state of harmony, this formation works as a balm for restlessness brought on by the frenetic pace of modern life. It imbues a sense of reassurance and reconnection, while hydrating, healing, refining and strengthening on a physical level.

The use of amber oil relaxes brainwaves, helping to ease anxiety and stress. Sandalwood calms the nervous system - its earthy aroma inducing a meditative frame of mind. Other key ingredients include rose quartz crystals, jasmine, rare black Peruvian and purple muds, wild harvested butters and silver. Techniques include a black amber smoking ceremony, a Tibetan Ku Nye massage, meridian and acupuncture work and kneading.

Recommended for treating stress, exhaustion, anxiety, jet lag, dry skin and hair, insomnia, tension in the lower spine and adrenal fatigue, as well as feelings of insecurity, rootlessness and the inability to switch off.

# Nourishing Pathway

For those seeking regeneration, recuperation and healing.

They have all been chosen for their powerful regenerative abilities, fostering a meditative state and feelings of joy. The techniques used in this formation are geared towards healing. They include a smoking ceremony with frankincense, a chakra-balancing massage, mantra music, marma point therapy and the Light Technique – based on the shamanistic principle that luminosity is generated from three points on the face.

# Therapeutic Massage

In Traditional Chinese Medicine (TCM), knowledge of the human body is based on Taoism, which emphasises the oneness of nature and all beings. The balance of yin and yang is intrinsic to Taoism and to TCM, impacting how the body's life force (qi) runs through 12 meridians (energy pathways) in the body. Dotted along these meridians are up to 2,000 acupoints – the locations where qi rises close to the surface of the body. When qi flows freely through the meridians, the body is balanced and healthy, but if this vital force becomes blocked or weakened (through diet or stress for example), this imbalance can result in physical, mental or emotional ill health. To regain balance TCM employs therapies ranging from herbal medicine to acupuncture, as well as a variety of massage techniques.

## **Meridian Therapy**

60 / 90 minutes

This relaxing acupressure massage therapy seeks to unblock and balance the meridian lines of the body. Long flowing strokes focusing on the meridians are interspersed with specific pressure on acupressure points. A choice of aromatherapy oils is available.

## **Hot Stone Massage**

60 / 90 minutes

Hot Stone massage is very effective in promoting internal harmony and positive energy flow. It is also deeply relaxing as smooth heated stones are used as an extension of the therapist's hands, gliding over the skin to help draw out tension and encourage a deep sense of wellbeing.

## **Traditional Chinese Massage**

60 / 90 minutes

A fundamental traditional treatment in China, Tui Na is a strong deep tissue massage that works to relax the body while also restoring the balance of qi. In TCM, pain in the body is seen as the result of blockages, and Tui Na seeks to remove these by increasing circulation and focusing on certain acupressure points, boosting the body's self-healing capabilities. Relaxing yet energising, the massage is performed over loose comfortable clothing without the application of oil.

## **Hands & Feet Reflexology Massage**

60 minutes

This deeply relaxing massage involves the application of pressure to the feet and hands with specific thumb, finger and hand techniques. It is based on the TCM system of zones and reflex areas that reflect an image of the body on the feet and hands, with the premise that such work effects a physical change to the body.

# Aman Advanced Facial

## Aman Advanced Facial

60 / 90 minutes

A wholly rejuvenating experience incorporating Aman's newest skincare collection, Essential Skin, the exclusive Aman Advanced Facial combines effective formulas made in Japan, with exfoliation and manual lifting techniques to stimulate facial muscles, welcoming tighter, brighter skin.

The use of red and blue light therapy follows – a safe, natural way to provide multiple benefits to your skin. The treatment concludes with the application of the Aman Nourishing Gold Algae Face Mask to achieve an exceptional glow.

The facial can be extended to 90 minutes in length, incorporating a longer scalp massage for relaxation, alongside a facial massage and hydra-active Mineral Mask to boost hydration.

# Results-Oriented Facials

## **Cool Laser Face Therapy**

60 / 90 minutes

Offering exceptional anti-ageing results through the reduction of fine lines and even deep frown lines, this highly effective and clinically proven skin therapy utilises 'Laserneedles'. Aside from the cellular effects, the inclusion of infrared and red wavelengths helps to improve the look of scarring and blemishes, also bringing inflammation under control. Wrinkles are targeted through focusing the 'Laserneedles' on facial acupuncture points, thereby relieving muscular tension without any bruising or skin punctures.

## **Rejuvenate Oxygen Facial**

60 / 90 minutes

Targeting the appearance of fine lines and wrinkles, this effective anti-ageing facial dramatically enhances the overall hydration of the skin and significantly improves tone and radiance. A high concentration of oxygen delivered in Aman's Rejuvenating Serum through the Intraceuticals System, together with Hyaluronic Acid Technology, combines to deeply hydrate and nourish the skin. Free radicals are neutralised, the appearance of lines and wrinkles are reduced and your skin looks visibly lifted, younger and luminously radiant.

## **Opulence Brightening Oxygen Facial**
