Giving Back

Aman strives to support every community it touches and Amanera is no exception. Among our many community initiatives that run throughout the year, there is one we'd like to highlight this festive season, a deserving cause very close to our hearts.

The Mariano Alonzo Acosta School, located in the La Cubana community in the municipality of Río San Juan, was founded in 1948, initially offering primary education up to fourth grade. Named in honour of Mariano Alonzo Acosta, a dedicated advocate for the community, today the elementary school offers local children opportunities for a brighter future.

Amanera is currently working with the school to improve its facilities to provide a safer and more conducive learning environment for its students. For more information on how you can join our fundraising efforts or make a donation to support infrastructure development and the provision of essential educational resources, please speak to your guest assistant.
