Cigars

Jose L. Piedra Petit Caballeros 48 ring by 120 mm

This Cuban Cigar is still 100% handmade, using short filler tobacco from the Vuelta Arriba region of Cuba. The Petit Caballeros feature a most versatile vitola, namely the Coronas Extra. The ideal companion for a 40-50min smoke. You can expect full-bodied smoke with roasted coffee notes and a hint of cedarwood.

Punch Petit Coronations 40 ring by 120 mm

Petit Coronas has been enjoyed since before the days of the revolution. The diminutive size of their Coronitas vitola makes them an ideal smoke when time is short. They will provide around 30 minutes of medium-bodied smoke - as one would expect of Punch - and flavors of leather and spice.

Cohiba Siglo 1 40 ring by 100 mm

The smallest Cohiba cigar on the market. It does, however, maintain the elegance of a larger Cohiba, and is full of woody, spicy and sweet flavors. This Perla is a perfect companion to your afternoon coffee break and offers 30 minutes of smoking pleasure.

Hoyo de Monterrey Monterreyes 55 ring by 145 mm

The seventh limited edition cigar in Habanos' prestigious brand. It was announced as part of the Habanos World Days online festival in 2021. The light strength associated with this famous brand is served in spades, with all the tobacco used having undergone the additional two years of ageing required for an Edición Limitada.
