Aman New York Signature Journey

120-minutes

In this city of perpetual motion, the Aman New York Signature Journey has been designed to impart an enduring sense of stillness, harmony, connection and confidence within the tranquil oasis that is Aman Spa New York. Harnessing the healing, stabilising and balancing benefits of fluorite, a crystal known for clearing negativity, boosting cellular regeneration and focusing the mind, this signature experience - only available at Aman New York - will promote physical and emotional alignment while boosting self-esteem, mental fortitude and overall wellbeing.

This experience begins with meditative singing bowls that induce a tranquil state of mind. Therapeutic massage techniques soothe the mind and body, slowly bringing awareness while promoting physical and emotional alignment, boosting mental fortitude and enhancing overall wellbeing.

Aman Signature Treatments

Available at Aman Spa destinations around the world, these Signature Treatments reflect the Grounding, Purifying and Nourishing pathways of the Aman Skincare product range. Each treatment is designed to support your individual needs while targeting specific concerns and personal wellness goals.

Grounding

For those seeking reconnection, stillness and perspective, this deeply relaxing, meditative and regenerative pathway is a balm for the restlessness brought on by the frenetic pace of modern life. Developed to promote inner peace and return the body and mind to a state of harmony, this pathway promotes skin-cell regeneration while hydrating and plumping the skin to reveal a healthy, radiant glow. It is recommended for normal to dry skin types, including mature and dehydrated complexions.

Grounding Polish & Wrap Ritual

90-minutes

A key ingredient in this ritual is amethyst powder, known for its gently sedative energy that promotes peacefulness and emotional stability. The full-body scrub gently exfoliates the skin, brightening tone and improving texture, while the cocooning wrap initiates a period of stillness, leaving skin radiant. The final touch is the application of silky Smoked Body Butter.

- Restores the nervous system, stimulates circulation and regenerates skin cells
- Boosts the lymphatic system and strengthens the immune system
- Reduces stress levels and promotes mental clarity

Grounding Massage Ritual

60- to 90-minutes

A Ku Nye full-body massage honours ancient Tibetan healing tradition to stimulate muscles, while a subtler massage energises the meridian system. This treatment incorporates massage along meridian lines, acupressure, kneading and deep-tissue techniques. The body massage is followed by a Tibetan head massage that induces an even deeper level of relaxation.

- Moisturises dry skin, breaks down scar tissue and eases muscular tension
- Reduces chronic pain and improves athletic performance
- Balances vital energy

Grounding Facial Ritual

60- to 90-minutes

This facial incorporates rose-quartz crystals to promote healing, frankincense to aid rejuvenation and hyaluronic acid to boost hydration. Lymphatic and muscular massage techniques stimulate circulation and raise vibrational energy, while acupressure using heated Himalayan salt poultices leaves skin radiant. The treatment ends with a mask of Peruvian black mud and amethyst crystal, and a Tibetan head massage.

- Brightens, firms and intensely hydrates
- Promotes cell renewal and improves uneven skin tone
- Encourages emotional stability and peace of mind

Grounding Journey

180-minutes

Incorporating all three Grounding treatments, this journey encourages a deep connection to the earth and a renewed sense of self. It begins with the Grounding Scrub & Wrap Ritual, followed by the Grounding Massage and is completed with the Grounding Facial. Each treatment builds on the one before, grounding in every sense of the word

Purifying

For those seeking lightness, breathing space and a fresh start, this pathway detoxifies, cleanses and strengthens the skin's defences while enhancing clarity of thought. Refreshing, invigorating and energising, the products in this pathway deeply cleanse and tone normal to oily complexions, including congested, dull, stressed and blemished skin. Active ingredients include lilac stem cells, hyaluronic acid and Kalpariane™ seaweed extract. The first is a superior antioxidant and anti-inflammatory, which helps balance healthy sebum levels and protect skin from environmental damage. The second hydrates and plumps the skin, leaving it softer and smoother. The third, a trademarked antioxidant and anti-wrinkle agent, supports collagen and elastin production to preserve skin's elasticity and suppleness.

Purifying Polish & Wrap Ritual

90-minutes

This ritual revives the spirit, tones the skin and induces a state of peace. One of the key ingredients is quartz, known as a master healer for its amplification of energy levels. Seaweed Fucus oil, raw honey and essential oils are also applied, stimulating circulation and lymphatic drainage. The meditative marine flora mud wrap includes deep-cleansing kaolin, mineral-rich sea lavender and seaweed for boosting collagen levels. The treatment ends with the full-body application of Palo-Santo Salve.

- Detoxifies the lymphatic system and boosts immunity
- Reduces swelling and improves skin tone and texture
- Increases energy levels and mental clarity

Purifying Massage Ritual

60- to 90-minutes

This deeply relaxing, detoxifying massage restores harmony to the body and clears the mind. By concentrating on lymphatic-drainage techniques, it manipulates lymph nodes and lymphatic vessels to increase their activity and promote the flow of lymph fluid. Compared to traditional massage, the pressure applied with manual lymphatic drainage techniques is much lower in intensity, yet powerful in its effects.

- Removes toxins and regenerates tissues
- Aids lymphatic drainage, reducing swelling and cellulite
- Increases immunity and eases muscle spasms

Purifying Facial Ritual

60- to 90-minutes

By combining nerve-point therapy and lymphatic drainage to detoxify, this tension-releasing treatment is extremely beneficial for those exposed to excessive urban pollution. Lymphatic massage stimulates the glands in the chest, neck and face, resulting in glowing, toned skin. Key ingredients include brightening pearl, regenerative homeopathic copper and powerful marine extracts that strengthen collagen production.

- Hydrates, brightens and firms skin
- Aids lymphatic drainage and releases tension
- Detoxifies to reduce the effects of pollution

Purifying Journey

180-minutes

This journey targets purification on every level, from clearing the skin and detoxifying the body's organs to removing negative energy and focusing the mind.

Nourishing

For those seeking rejuvenation, renewal and awakened senses. This pathway encourages reconnection between body and mind. Nurturing and rejuvenating, it helps maintain optimal hydration and vitality for all skin types, including sensitive skin, while improving elasticity and resilience. Active ingredients include argan stem cells and hyaluronic acid. The first penetrates the skin's dermis to help protect and revitalise skin cells, improving elasticity and the appearance of fine lines. The second hydrates and plumps the skin, leaving it softer and smoother. Other key ingredients include jasmine, sandalwood, vitamin B12, fresh royal jelly, jade crystals, silk and gold, all chosen for their powerful regenerative abilities.

Nourishing Polish & Wrap Ritual

90-minutes

Encouraging the body to enter a phase of deep rest, this nutrient-rich treatment includes jade powder – known to hydrate, tone and rejuvenate – in both the scrub and wrap. The scrub also contains healing calendula oil, restorative amethyst powder, essential oils and Himalayan salts that soften the skin. The mud wrap combines the nourishing effects of jade powder with mineral-rich Italian clay, rose hydrolat and argan oil. The treatment ends with the full-body application of Sacred Heart Balm.

- Boosts the lymphatic system and restores the nervous system
- Nourishes skin while improving tone and texture
- Improves body awareness and invokes a sense of nurture and comfort

Nourishing Massage Ritual

60- to 90-minutes

This blissful, nurturing treatment is ideal for physically or emotionally exhausted souls. The use of marma-point therapy brings the body back to a state of heightened awareness and balance, while rhythmic massage techniques ease muscular tension, imbuing a sense of complete restoration. The use of sound healing stimulates the kundalini – dormant energy stored at the base of the spine.

- Relieves exhaustion, stress and chronic fatigue
- Reduces anxiety and promotes deep relaxation
- Balances the energy body and emotions

Nourishing Facial Ritual

60- to 90-minutes

This brightening, moisturising treatment calms and rejuvenates with honey, rosehip, wheat germ, cactus oil, jasmine and silk. Combined, they work to soothe and brighten dull or irritated skin. This facial also invites relaxation by stimulating the flow of prana, described as the universal life energy that enters the body via breath.

- Hydrates, soothes and feeds the skin
- Treats rosacea and dermatitis
- Improves the look of scarring and pigmentation

Nourishing Journey

180-minutes

This journey is an immersive experience that benefits every aspect of the individual. It begins with the Body Scrub and Wrap, which is followed by the Massage and then the Face Ritual, to leave you feeling reconnected and rejuvenated.

Mindfulness & Meditative Movement

One of Aman's four pillars of wellness, Aman Spa New York offers many forms of mindfulness and meditation training, as well as meditative movement practices.

Mindfulness Meditation

60-minutes

Mindfulness is the ability to be fully present, aware of where we are and what we are doing and not overly reactive or overwhelmed by what is going on around us. While mindfulness is something we all naturally possess, it is more readily available to us when we practice it daily. Meditation is an approach to training the mind. Through meditation, you can become more mindful of how your thoughts and feelings tend to move in particular patterns. With practice, an inner balance develops and evolves.

Qigong

60-minutes

Originating in China, Qigong combines breathwork with flowing movements to encourage the flow of Qi (energy). This practice incorporates visualisation and is considered a healing art that has evolved as an integral part of martial traditions over centuries.

Pranayama

60-minutes

Breathing, something we do involuntarily, is a vital function of life. In yoga, it is referred to as pranayama – prana from the Sanskrit for 'life force' or 'breath' and ayama meaning 'to extend' or 'to expand'. Pranayama therefore means the control of one's life force, and research shows that a regular practice of controlled breathing can decrease the effects of stress on the body and increase overall physical and mental health.
